

Maria Silva

SENIOR PRODUCT MANAGER · AI-FIRST PRODUCT & GROWTH

<https://www.linkedin.com/in/maria-silva-example> | maria.silva@example.com | +55 11 90000-0000

PROFESSIONAL EXPERIENCE

McKinsey & Company · São Paulo, Brazil

Engagement Manager (EM) · 2022 – Present

- Led an AI-first product development lifecycle redesign at a top-5 LATAM bank: 45% lead-time reduction in two priority squads, 6× A/B-testing throughput improvement, and ~R\$1B/month in unlocked credit-balance potential — directly informing the bank's roadmap and squad ways-of-working.
- Designed the customer-segmentation analytics for a Brazilian retail bank's loyalty redesign, projected to drive a 12-point uplift in primary-bank-relationship penetration over 24 months; segmentation model retained as the client's CRM team's permanent toolkit.
- Trusted advisor to a top-5 LATAM bank's CPO and CTO on AI tooling decisions during a multi-quarter PDLC engagement, anchoring the experimentation framework adopted firm-wide across 15+ product squads.
- Redesigned dynamic-pricing logic for a B2B retail marketplace, projected to deliver a 4–6% gross-margin uplift through segment-by-segment pricing — owned product/data interface end-to-end.
- Built and scaled McKinsey's GenAI capability program from 1 region to 3 regions over 18 months, leading 15+ contributors to train 150+ practitioners; the program seeded 30+ downstream AI-product client engagements.
- Mentored 3 Business Analysts to first independent module ownership; all three received above-average or distinction ratings in their next cycle, with team-feedback NPS of 92 vs the Firm benchmark of 65.

Tech Corp · São Paulo, Brazil

Solution Consultant · 2020 – 2022

- Built and presented technical proofs-of-concept that closed 8 enterprise software deals across 12 financial-services and retail customers in 18 months.
- Designed and ran 25+ customer design-thinking workshops to translate operational pain points into shipped solution architectures, building the pre-sales playbook adopted as the team standard.

EDUCATION

Polytechnic School of the University of São Paulo (top-ranked engineering school in Brazil) · São Paulo, Brazil

BEng. Electrical Engineering · 2014 – 2019

- CNPq scientific initiation scholarship — thesis on machine learning for power-grid load forecasting; semester exchange at TU Delft (Netherlands, 2017); junior enterprise board member.
